

Ian Hogg
Manager – Landside Operations
San Jose Mineta International Airport

September 25, 2023

**Permitted SJC On-Demand Ground Transportation Operators
City of San Jose**

Dear Operators:

After consideration from Airport Management and the Airport Director's Office, the San Jose Mineta International Airport will be initiating the following rate changes to our Ground Transportation Trip fees, pursuant to San Jose Mineta International Airport Rate Resolution No. 79269.

On-Demand trip fees were last adjusted May of 2015 to \$2.30 for non-CFV (Clean Fuel Vehicles) Taxicabs and \$1.80 for CFV Taxicabs. Consumer Price Index (CPI) data shows an increase of 31% between June 2017 (CPI of 796.597) and June 2023 (CPI of 1,045.427). Additionally, SJC trip fees have been low compared to other Airports located in the region. Starting on November 1, 2023, SJC will be increasing all on-demand trip fees to a flat \$3.75 rate, which will include pick-ups and drop-offs for all operators. Please note that all permitted on-demand, pre-arranged and app-based operators will be receiving the same trip fee increase to \$3.75.

In addition to this rate increase, SJC will be eliminating all Clean Fuel Vehicle and Americans with Disabilities Act (ADA) discounts. All on-demand, pre-arranged and app-based operators will pay a flat \$3.75 rate per trip. Please direct all questions to the email provided below.

Sincerely,

Ian Hogg
